

SONG SIX

So what's on the agenda today friends
I got GOOD NEWS from over here
Rick arrived yesterday
Sounds like he's having fun
Had a lesson on luqin in Shek Kip Mei
He's been out round town and he's on his way
To join me

So what's on the agenda today friends
I been reading the last meetings minutes
I'm looking into blinds and ventilation
Can't wait for the database integration
and the updated Front of House job descriptions
Can't wait

This is song six, they're really looking after me
It's like a team effort with Chi Chung and friends
The lights just going, the city lights up
I've got a long way before this song cycle ends
There's some love songs on the way for
Paula in Vancouver
Nelly in Montreal and the love of my life
There's some content on it's way and some chinese
melodies (that's next) so hope to see you later..

So what's on the agenda today friends
I guess a moan about stats and tidy desks
The stress of marketing and promoting events
A health check, a wealth check, maybe a pay cheque
too, so heres a cheers - a cheers to you

GREAT PEOPLE, GREAT FRIENDS, GO TEAM!
